https://github.com/egovernments/frontend/blob/WS_ModifyConnection/web/rainmaker/dev-packages/egov-wns-dev/src/ui-molecules-local/ActionFooter/index.js

There are applicable two scenarios.

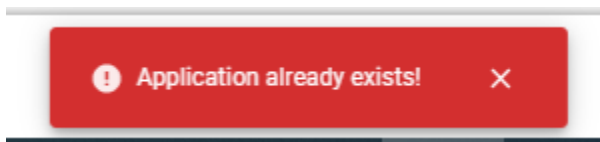

Scenario: 1

If due amount > 0, on click of Modify connection it will throw the error message.

Scenario: 2

In employee search application table if you find application type as "Modify water or Modify sewerage connection" then application status should be "pending for approval" in that case On click consumer No it will redirect to connection details page below Footer if you click on Modify Connection it shows error message.

The above error message shows "Application already exists" so you can find employee search table for connection number already application number created and direct application status should be Pending for Approval. Once that application is approved then only it will redirect to apply page for modify connection flow.

Scenario: 3 due amount ≤ 0 or NA on click of Modify connection button it will allow to Edit the [connection](#). It will redirect to Modify connection flow.

PT_UPDATE_PROPERTY_BUTTON

In above screen property update screen property address and property details are editable and owner details are non editable form. If we want to update here any property related information which we require we can update property and final in summary page we can click on update property. After updating property it will redirect to apply screen.

For Modify connection there is connection holder details card added that functionality and how it works you can refer the connection holder document [Connection Holder Details](#) .

For Modify connection there is no connection details card to enter because at the time of apply for new connection itself we selected water or sewerage connection.

On click of NEXT STEP it will go to the documents screen. For Modify Connection we have added additionally documents which are owner NOC, Self Declaration documents. All the documents present in document section are non-mandatory for Modify connection. list of documents are fetched from <https://github.com/egovernments/egov-mdms-data/blob/master/data/pb/ws-services->

[masters/ModifyConnectionDocuments.json](#) and the relevant code present in https://github.com/egovernments/frontend/blob/WS_ModifyConnection/web/rainmaker/dev-packages/egov-wns-dev/src/ui-utils/commons.js
